

Cleaning and Sanitizing Equipment for Enhanced Safety

WARE WASHING

Hatco Water Heater Boosters provide the 180°F (82°C) final rinse water for all sanitizing needs, as well as effectively removing food residue and providing rapid self-drying for sparkling clean and sanitary dishware and flatware. Available in a wide variety of sizes.

Champion DH6000 High Temperature Hood-type Dishwashing Machine features a built-in booster configured to ensure 180° rinse.

- User-friendly touchscreen
- Automatic start when hood is closed
- Automatic tank fill and drain

SANITIZING

Edlund Helios UV Knife Sterilizer Cabinet KSUV-18 safely sterilize knives in as little as 3 minutes with 99% efficacy. Holds 12 knives plus steel. The FDA has not yet cleared the cabinet for medical (PPE) use, but it is being tested and used by some facilities for this purpose.

Cambro Personalized Containers Nonreactive containers safely hold sanitizing solution. In a clearly-labeled vessel to support frequent cleaning and sanitizing.

- Choose “**SANITIZER**” or “**SANITIZER ONLY**”
- Available in 6 Quart Round or 22 Quart Pail with Bail
